

Gas Extraction Pipework
Perimeter Boreholes
Landfill Gas

ANEMOMETER - High gas flow indicator

- GA2000 and GEM2000 range
- Plug in connection
- Flow in m/s or m³/h (set up at time of manufacture)
- 11mm diameter head
- Flow up to 40m/ sec
- Operating temperature up to 80°C
- Use on gas extraction systems

INTERNAL LOW FLOW

- Specify at time of manufacture
- Only on new GA2000 Plus / GA2000
- 0 - 25 litres an hour
- Borehole low flow monitoring
- Use on perimeter boreholes

PITOT TUBE - Gas flow

- Only use with GEM2000 / GEM2000 Plus
- Pressure readings taken in mbar
- High gas flow calculated on analyser m³ / h
- Use on gas extraction systems
