

ENVIROEQUIP

Landfill Gas Monitoring Solutions

FIDIPID Vapour Analyser **Thermo Scientific**

BUY OR RENT! The TVA1000B is the only portable, intrinsically safe, survey flame ionization (FID) and photoionization (PID) dual monitor which provides fast and accurate readings of organic and inorganic vapors and meets US EPA Method 21 specifications for monitoring fugitive emissions.

- Simultaneous photoionisation and flame ionisation
- Simple-to-use menu driven operation
- Designed for field conditions
- Optional enhanced probe

NOW AVAILABLE FOR RENT!

Rental Costs*

Per Day \$250.00

Per Week \$925.00

Item No. TVA1000B

BUNDLE & SAVE!!! - Landfill Gas Monitoring Kit
Rent the TVA1000B, GA2000 and Glas Flow Pod together for only \$375 per day

EnviroEquip is your source for landfill gas monitoring instruments for purchase or rent. Check out our range and contact us today!

NOW AVAILABLE FOR RENT!

GA2000 Landfill Gas Analyser **Rent the optional Gas Flow Pod**

BUY OR RENT! The industry standard GA2000 is now available for rent with optional Gas Flow Pod. Utilised with dedicated software the GA2000 becomes an extremely powerful detection monitoring and change indicator tool.

- Infra-red detection of CH₄ & CO₂
- Measures CO₁, H₂S, O₂ and barometric pressure
- Integral sample draw pump
- Gas Flow Pod now available to rent - used for measuring low flows (range 0.1-12/hr) in or out of boreholes

Rental Costs*

Gas Analyser		Flow Pod	
Per Day	\$110.00	Per Day	\$50.00
Per Week	\$499.00	Per Week	\$200.00

Item No. GA2000
